## Facilitator's Guide to PBIS Tier II Training

### Module 2

### *The Tier II Leadership Team*

## Arkansas State Personnel Development Grant

**Focus Area:** The focus of this module is district and school Tier II teams and team meetings.

**Title of Training:**

### Module 2: The Tier II Leadership Team

**Suggested Training Time:** 1-2 hours

**About this guide:**

This guide and others in the series were developed to assist facilitators when presenting PBIS training modules to administrators, schools, districts, teams, and others interested in implementing PBIS Tier II.

What is included?

- The first part of this guide (pgs. 1 – 4) includes information to help facilitators prepare to present the training module.
- The main part of this guide includes a picture of each slide from the accompanying PowerPoint, with notes for presenting each slide.
- Throughout the guide are activities and examples that are not included in the accompanying PowerPoint presentation.
  - The activities will appear in a green text box with a **green star.** 
  - Examples will appear in a **blue text box** with a smiley face. 
- At the end of this guide are discussion questions, homework, and resources for attendees.

**Suggested pre-requisites to this training:**

- Tier I modules
- Tier II module 1

**Training Description:**

This training module was designed to help districts and schools build strong Tier II teams and create structures to ensure efficient, effective team meetings.

**Module Sections:**

**Introduction** – Purpose and objectives (slides 1 – 5) pgs. 5 – 10

**Training Sections**

**Section 1** – Tier II: Team Responsibilities (slides 6 – 13) pgs. 11 – 21

**Section 2** – Staff and Expertise Needed for the Team at Tier II  
(slides 14 – 30) pgs. 22 – 42

**Section 3** – Team Discussions at Tier II (slides 31 – 46) pgs. 43 – 67

**Section 4** – District Leadership (slides 47 – 50) pgs. 68 – 72

**Conclusion** – Summary and resources (slides 51 – 54) pgs. 73 – 77

**Discussion questions, homework, resources** – pgs. 78 – 79

**Training Materials/Equipment:****PowerPoint for Module 2: The Tier II Leadership Team**

- Equipment needed/recommended to project the PowerPoint:
  - Laptop computer
  - Access to PowerPoint (downloaded on computer, flash drive, etc.)
  - Projector
  - Speakers, if needed
  - Microphone(s), if needed
  - Required connecting cables, extension cords, etc.
  - “Clicker” to advance slides
- Showing videos embedded in the PowerPoint presentation:
  - Before beginning your training session, put the PowerPoint in presenter mode and advance to the slides with embedded videos.
  - Note that it may take a minute for the video to load.
  - Once the video is loaded, a still shot with an arrow to start the video will appear on the slide.
  - Click on arrow to check that the video works with your Wi-Fi.

- Provide links for participants to download the PowerPoint.
- If necessary, provide a hard copy of the PowerPoint.

**Suggested Materials:**

- Notepads
- Pens or pencils
- Easel and flip chart
- Markers
- Sticky notes

**Handouts:**

Physical and/or electronic copies of:

- [Tier II Team Communication Strategy](#) (pg. 17)
- Comparison of Tier I and Tier II Team Responsibilities (pg. 19)
- [Example: Tier II Team Roles and Responsibilities Before, During and After Meetings](#) (pg. 30)
- Guiding Questions for Developing the Tier II Team (pg. 39)
- [Team Roles and Responsibilities template](#) (pg. 40)
- 3-Tiered System of Support Necessary Conversations (pg. 47)
- [Pre-Meeting Organizer](#), part 1 (pg. 50)
- [Pre-Meeting Organizer](#), part 2 (pg. 53)
- [Tier II Team Meeting Agenda](#) (pg. 57)
- [Tier II Problem Solving Agenda](#) (pgs. 62 – 65)

**Activities in this Training:**

- Communication Planning (pg. 15)
- Team Roles and Responsibilities (pg. 38)

**Essential Questions:**

These essential questions will be addressed in this training module:

- What are the roles and responsibilities of the Tier II team?
- What are the important conversations that need to take place during Tier II team meetings?
- What tools and planning can help ensure that Tier II team meetings are efficient and effective?
- How can the district support Tier II implementation?

**Trainer Tips:**

- The Tier II team requires more expertise in the areas of behavior and interventions. By using the guiding information in this module, schools can create strong Tier II teams. All schools have different situations, so some will need to find the best available staff and commit to building skill and expertise over time.
- Because teams will be having conversations about not only systems but individual students, the team (or some members of the team) will need to meet more often. The tools in this module will help teams create organization so that their meeting time is efficient and effective.
- By having support and resources at the district level, schools have a much better chance of success and sustainability of Tier II. Districts can build capacity for training, support, coaching, etc., and can work with schools to develop common materials and resources, such as data tools.

**[ The Tiered Fidelity Inventory (TFI) ]**

**Trainer Notes:**

- The TFI will be used throughout PBIS modules. Each module aligns with one or more of the TFI items, denoted by the yellow arrows.
- The TFI is a tool that can be used for PBIS implementation planning, PBIS progress monitoring, and evaluation of PBIS implementation.
- In this module, items 2.1 and 2.2 will be addressed.
- Fidelity checks will appear throughout this module at the end of content sections.

**RTI Arkansas**

**Review:  
Purpose of  
Tier II**

- Support students that need more than Tier I, but not individualized intervention plans
- Provide interventions to groups of students with similar needs

### Slide #5

### [ Review: Purpose of Tier II ]

#### Trainer Notes:

- Module 1 went into more depth on the purpose of Tier II, but this slide serves as a reminder of the purpose.
- Typically, in schools with Tier I implemented with fidelity, 80% of students respond well to Tier I.
  - This means that they are following the expectations and receiving very few discipline actions or corrections.
- Of the 20% of students who don't respond to Tier I, only a very small percentage have serious issues that need individualized attention (Tier III).
- Typically, about 15% of students just need some extra support, but do not need individualized interventions. Tier II serves these students.
- Tier II supports students who may continue to escalate in behavior if they are not redirected now. By grouping students with similar issues together, instead of working one-on-one with students, schools are able to use fewer resources – especially time spent by teachers and administrators. Schools give the same intervention to a group of students, and that intervention is still matched to the students' needs.

## **Training Section One**

### **Tier II: Team Responsibilities**

**Slides 6 - 13**

#### **Goals**

Participants will learn

- The responsibilities of the Tier II team
- How to develop a strong communication plan

# Tier II: Team Responsibilities

**Slide #6**

**[ Tier II: Team Responsibilities ]**

**RTI Arkansas**

Initial Team  
Responsibilities  
For Tier II

- Develop a system to refer students for Tier II interventions
- Develop data decision rules
- Develop intervention(s)
- Develop a process to match student need to appropriate intervention
- Provide training for staff on Tier II and interventions

### Slide #7

## [ Initial Team Responsibilities For Tier II ]

#### Trainer Notes:

- The PBIS team drives the implementation process. Depending on the size of the staff and level of expertise, some schools may decide to have the same team members for both Tier I and Tier II. However, some schools may have a separate team for Tier II. There is not one right answer — each school needs to decide what fits their needs.
- The team is responsible for developing the Tier II interventions for groups of students, **as they are needed**, and developing a system for referring students. **Typically, the team will start with one intervention (usually check-in, check-out) and eventually add others as needs arise.**

**RTI Arkansas**

## Ongoing Team Responsibilities For Tier II

- Train and support staff on their role(s) in the interventions
- Develop new interventions as needed
- Monitor implementation of interventions (group-wide data) and develop action plans
- Monitor student progress (individual data) and determine appropriate actions
- Provide data about Tier II to staff
- Update teachers on progress of the students they are supporting

Arkansas Positive Behavioral Interventions & Supports | Center for Community Engagement, University of Arkansas

### Slide #8

## [ Ongoing Team Responsibilities for Tier II ]

#### Trainer Notes:

- Team members will collaborate to make decisions about behavior based on data that are collected and analyzed regularly.
- The team supports other staff and keeps everyone informed.
- Teams need to not only look at individual student data, but data for all Tier II students collectively.

## Communication Considerations

- **Are you** sharing ongoing information and **data**?
- **Are you** receiving feedback and input?
- **What** information **should** be shared?
- **How** should it be shared?
- **With whom** should it be shared?
- **Who** will ensure it is shared?

### Slide #9

### [ Communication Considerations ]

#### Trainer Notes:

- Assess any current communication plans (e.g., plans developed during Tier I implementation) and how well stakeholders are getting and giving information.
  - How can teams improve?
  - What are some new ideas for disseminating info?
- "Routine thoughtful planning for communication can lead to well-informed stakeholders and greater unity." (*MO-SWPBS Tier II Handbook*)

### ACTIVITY

#### Communication Planning

- Ask participants to assess their current communication plan, using the guiding questions on this slide.
- Advance to the next slide and provide the communication plan template to participants.
- Ask participants to use the template to begin planning for how they will communicate to various stakeholders about Tier II implementation. Note that the template asks for a "strategy," so be sure to point out that the team may want various approaches to ensure stakeholders are informed and included in the process; e.g., having a parent night, a monthly newsletter, and a website with information might ensure that more parents understand Tier II.

### Slide #11

## [ Comparison of Tier I And Tier II Team Responsibilities ]

#### Trainer Notes:

- This slide and the next two show the full comparison of Tier I and Tier II team responsibilities. The full table is included on the next page.
- The basic differences in Tier I and Tier II team responsibilities lie in the groups of students they are supporting.
- The Tier I team addresses areas of need that will affect the entire school, while the Tier II team identifies and addresses small groups of students that have similar needs beyond Tier I.
- Both teams look at data and identify preventive, proactive strategies and interventions to address behavior issues before they escalate further.

## Comparison of Responsibilities of Tier I and Tier II Teams

Tier I Team	Tier II Team
Addresses and prevents problem behavior for 80% to 90% of the students.	Designs early intervention programs for the remaining 10-15% of students who are at risk for academic or behavioral problems.
Determines areas of need within the school.	Conducts proactive, regular student screening and coordinates and shares information with the Tier I team.
Uses schoolwide data to set priorities within the school.	Uses data to proactively determine which students need additional academic and/or social-behavioral support.
Identifies needed strategies, current and ongoing training, and resources.	Identifies staff skilled in conducting brief functional assessments.
Designs PBIS for the classroom and the entire school.	Designs PBIS for small groups of students and/or specific classroom settings needing additional assistance.
Provides ongoing support for staff members implementing PBIS.	Consults with and provides ongoing support for school staff who have students with academic and/or behavioral problems.
Shares schoolwide outcomes and makes modifications as necessary.	Shares intervention outcomes and provides ongoing support for student, teacher and family.
Coordinates schoolwide services.	Coordinates school and community services for groups of at-risk students.

- Both teams support staff and share information and data.

## **Training Section Two**

### **Staff and Expertise Needed for the Team at Tier II**

**Slides 14 - 30**

#### **Goals**

Participants will learn

- What type of expertise is needed among Tier II team members
- What staff are needed to fill various team roles
- Roles and responsibilities of the various Tier II team members

# Staff and Expertise Needed for the Team at Tier II

## Slide #14

[ Staff and Expertise Needed for the Team at Tier II ]

**RTI Arkansas**

## Expertise Needed At Tier II

**Tier II staff should have this expertise:**

- Tier I systems and practices
- Tier II interventions
- Understanding behavior of students within the school

**Arkansas Building RTI Capacity** **Arkansas Positive Behavioral Interventions & Supports** **Center for Community Engagement & Leadership at the University of Arkansas**

**Slide #15**

**[ Expertise Needed At Tier II ]**

**Trainer Notes:**

- If schools don't have this expertise among staff, look at staff who have some abilities/skills in these areas and who are willing to develop expertise.
- Look at district for support, too.
- The next two slides give a better understanding of the types of behavior expertise needed for Tier II.

**RTI Arkansas**

## Behavior Expertise

- Provide specialized information related to behavior assessment, interventions, and supports
- Provide expertise on replacement behavior and assessing function of behavior
- Provide professional development for staff

**Arkansas Building RTI Capacity** **Arkansas Positive Behavioral Interventions & Supports** **Center for Community Engagement & University**

**Slide #16**  
**[ Behavior Expertise ]**

**Trainer Notes:**

- The behavior specialist (school psychologist and other similar staff) can provide valuable information that will ensure students are properly placed in interventions.
- Staff will need professional development on Tier II and the interventions and this would be the logical person for providing this PD.

**RTI Arkansas**

## Intervention Expertise

- Coordinate pre-identification and intake of student information
- Coordinate parent/guardian consent and contact
- Provide direct intervention services to students
- Track progress of students
- Coordinate and support staff providing intervention services
- Provide professional development for staff

**Arkansas Building RTI Capacity** | **Arkansas Positive Behavioral Interventions & Supports** | **Center for Community Engagement at the University of Arkansas**

**Slide #17**  
**[ Intervention Expertise ]**

**Trainer Notes:**

- The intervention specialist can be the go-to person for all things related to all interventions. This could be the same person as the behavior specialist mentioned in the previous slide, depending on the school's resources and size, etc.
- This person can be tasked with the administrative parts of the interventions, as well (such as intake, parent consent, collecting data, and supporting staff through PD).

The slide features a blue speech bubble on the left containing the text "Where Can You Find This Expertise?". To the right is a bulleted list of roles. The slide includes logos for RTI Arkansas at the top right, and logos for Arkansas Building RTI Capacity, PBA Arkansas Positive Behavioral Interventions & Supports, and the Center for Community Engagement at the University of Arkansas at the bottom.

RTI **arkansas**

Where Can You Find This Expertise?

- Administrators
- Behavior specialists: social workers, school psychologists, school counselors, etc.
- Mental health agency partners
- Special education teachers
- General education teachers
- Special teachers (music, librarian, etc.)
- Tier I team

### Slide #18

## [ Where Can You Find This Expertise? ]

#### Trainer Notes:

- Administrators are a must for Tier II teams. They will be needed for organizing time and resources and providing information and data.
- At Tier II, you will begin to look at function of behavior. There may be both regular and special education students receiving interventions, so it is important to have team members with backgrounds in behavior and special education.
- Just as with Tier I, there will be problem solving both tier-wide and for individual students. It is good to have diverse input in these discussions.

**RTI** arkansas

## Team Roles For Tier II Meetings

- Team leader
- Administrator
- Coach
- Recorder
- Intervention coordinator(s)
- Time keeper
- Others (e.g., parent, student, etc.)

**Slide #19**

**[ Team Roles For Tier II Meetings ]**

**Trainer Notes:**

- These are the roles that are needed for leading Tier II implementation.
- Some of these roles are the same as the roles for the Tier I team. The next slide highlights the responsibilities of each member. Roles that are significantly different for Tier II are described in the rest of this section.

**Trainer Notes:**

- This example is on the next page as a handout.
- In this example, each team member's role is clearly defined for before, during, and after team meetings.
- Schools may want to develop something like this to make sure everyone always knows their role and their responsibilities during and between meetings.

## Tier I vs. Tier II Team Roles

Most roles are the same as those needed for Tier I meetings.

Exceptions include:

- Additional administrative duties
- New role of Intervention Coordinator

**Slide #21**

**[ Tier I vs. Tier II Team Roles ]**

**RTI** arkansas

## Administrative Responsibilities

- Identify and access available resources
- Provide updates on Tier I implementation
- Relay information about strategies and interventions previously used for identified students
- Ensure that staff are updated on student progress
- Ensure that staff receive professional development and ongoing support

**Slide #22**  
**[ Administrative Responsibilities ]**

**Trainer Notes:**

- In order to develop Tier II systems and interventions, the administrator or someone with administrative authority will be needed to help free up time and resources to make them possible.
- Responsibilities:
  - Identify and access available resources
  - Provide information on fidelity of Tier I implementation
  - Relay information on student behavior, previously used strategies, consequences, and interventions
  - Ensure staff receive information on student progress
  - Ensure support and professional development for staff

**RTI Arkansas**

## Intervention Coordinator Responsibilities

**Before team meetings:**

- Prepare summary of student progress monitoring data
- Prioritize which student's data will be reviewed

**During team meetings:**

- Present data updates and facilitate focused conversation

**After team meetings:**

- Share data highlights with staff
- Collect any other necessary data

  

**Slide #23**

**[ Intervention Coordinator Responsibilities ]**

**Trainer Notes:**

- The intervention coordinator(s) will be the point person for each intervention.
- The intervention coordinator will support students receiving interventions and staff providing interventions through training and ongoing communication.
- This person will also be compiling all data for students in the interventions, summarizing and graphing data, and presenting and sharing data with the team and other staff.

**[ TEAM MEMBERSHIP ]**

**Trainer Notes:**

- This slide and the next two go through some guiding questions to help schools create an effective Tier II team (adapted from the MO-SWPBS Tier 2 Workbook –Chapter 2).
- This first set of questions asks teams to look for talent and skills in their current Tier I team, as well as others that have the additional skills needed for Tier II.

# TEAM FUNCTION

- What is the role of our Tier II Team?
- How does this team relate to other committees or structures that already exist in our school?

Adapted from MO-SWPBS Tier 2 Workbook – Chapter 2

## THINKING LONG-TERM

- How long will team members serve?
- Will rotation occur?
  - If so, how?
- How can we ensure full representation of staff?

**ACTIVITY**

**Team Roles and Responsibilities**

- Provide participants with the guiding questions and the Team Roles and Responsibilities template from slides 25 – 28, which are available on the next two pages. The template can be downloaded here:  
<http://cce.astate.edu/pbis/wp-content/uploads/2019/01/Tier-II-Team-Roles-and-Responsibilities-template.docx>
- Ask participants to use the guiding questions and the template to develop a strong, diverse Tier II team and assign roles for team members.

## **Guiding Questions for Developing the Tier II Team**

- Who might be effective members for our Tier II Team?
- Within our existing Tier I Leadership Team, who has the expertise needed for Tier II?
- Who needs to be recruited for completing Tier II work?
- What is the role of our Tier II Team?
- How does this team relate to other committees or structures that already exist in our school?

## 2.1 Team Composition

Feature	Data Sources	Scoring Criteria
		0 = Not implemented 1 = Partially implemented 2 = Fully implemented
<p><b>2.1 Team Composition:</b> Tier II (or combined Tier II/III) team includes a Tier II systems coordinator and individuals able to provide (a) applied behavioral expertise, (b) administrative authority, (c) knowledge of students, and (d) knowledge about operation of school across grade levels and programs.</p>	<ul style="list-style-type: none"> <li>School organizational chart</li> <li>Tier II team meeting minutes</li> </ul>	<p>0 = Tier II team does not include coordinator or all 4 core areas of Tier II team expertise</p> <p>1 = Tier II team does not include coordinator and all 4 core areas of Tier II team expertise OR attendance of these members is below 80%</p> <p>2 = Tier II team is composed of coordinator and individuals with all 4 areas of expertise, AND attendance of these members is at or above 80%</p>

**Main Idea:** Tier II team needs individuals with specific skills and perspectives to implement Tier II supports.

## Two Types Of Team Discussions At Tier II

	<u>Systems Discussions</u>	<u>Individual Student</u>
<b>How Often?</b>	Once a month	Bi-weekly, at minimum
<b>What is the purpose?</b>	<ul style="list-style-type: none"> <li>• Monitor effectiveness of interventions</li> <li>• Make data-based decisions on interventions</li> </ul>	<ul style="list-style-type: none"> <li>• Develop plans <b>for each student</b></li> <li>• Make data-based decisions for each student</li> </ul>
<b>Who is involved?</b>	The PBIS Team	The PBIS Team Can include teachers and family of student being discussed

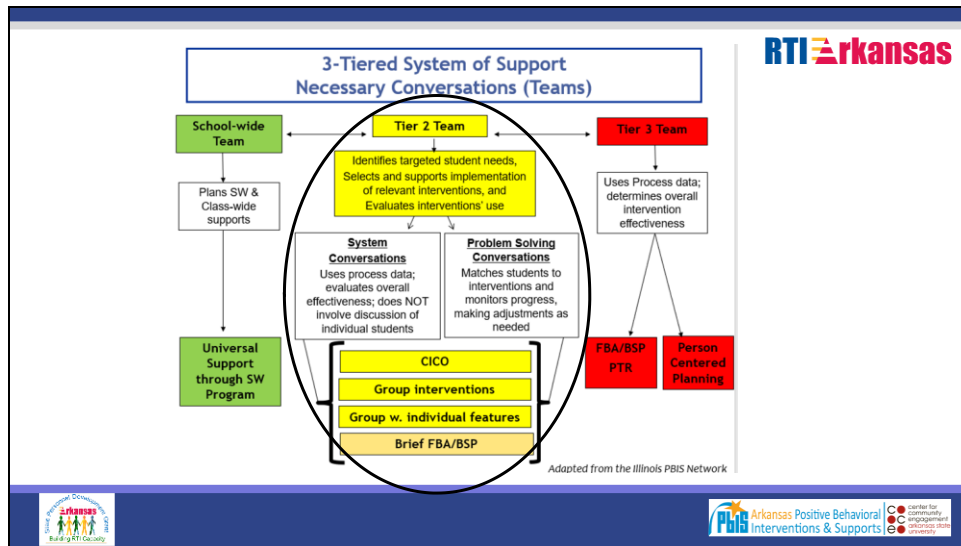

### Slide #32

### [ Two Types of Team Discussions at Tier II ]

**Trainer Notes:**

- The team will need to have two overarching discussions: overall success of Tier II (systems review and problem solving), and progress monitoring and problem solving around individual students.
- The progress of students will need to be discussed more frequently (at least every two weeks), with the systems conversation happening about once a month, similar to Tier I.
- Systems: The team will look at Tier II from an overall perspective the same way that Tier I is viewed. For example, if less than 80% of students in Tier II interventions are meeting goals, look at ways to improve the fidelity of implementation of the Tier II interventions.
- Individual students: The team, or a smaller group of team members will decide on intervention(s) and then monitor the progress of individual students using data. The team may want to include students’ teachers and family members when making decisions.

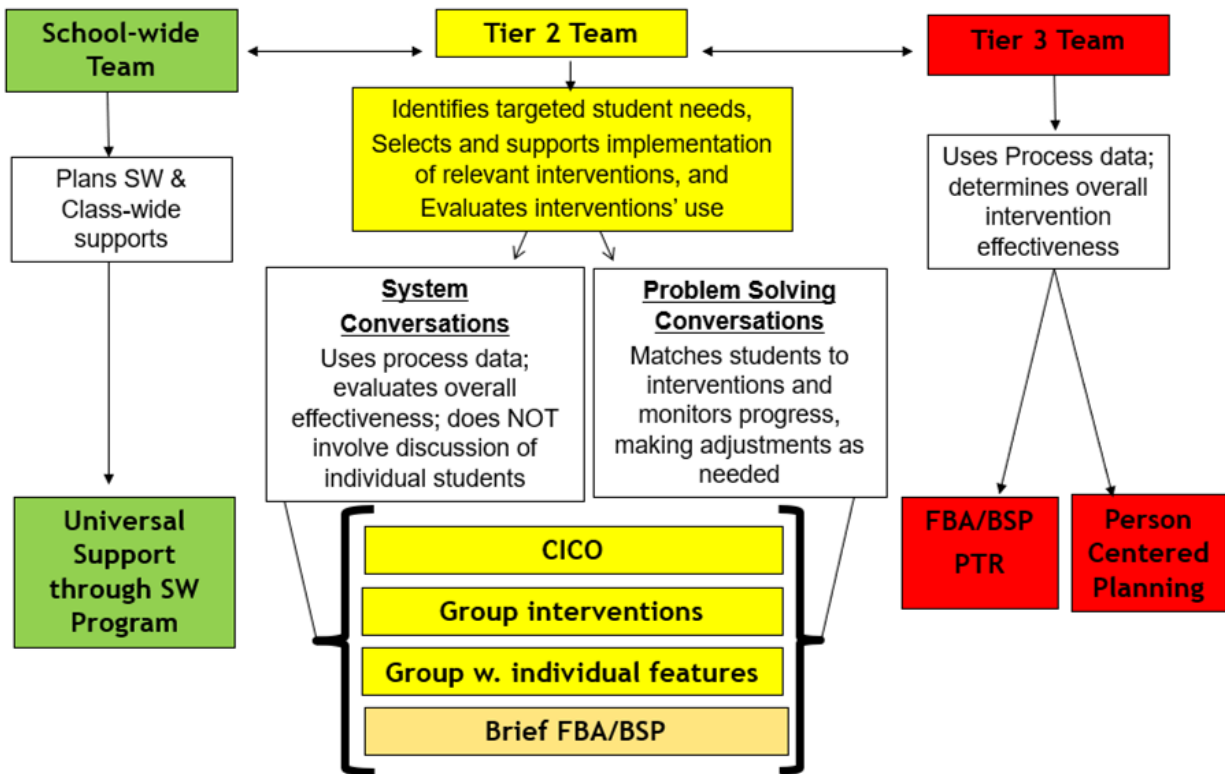

### Slide #33

## [ 3-Tiered System of Support Necessary Conversations (Teams) ]

#### Trainer Notes:

- This is a handout in the accompanying facilitator guide on page 47.
- This graphic gives an overview of how teams operate and interact through all three tiers of PBIS.
- Schools will have different staffing situations and will have to determine the most efficient, effective way to staff the PBIS teams.
- It is important that there are separate conversations happening for each tier and individual students.
- The problem-solving team will be smaller and more focused--talking about individual students.
- Problem-solving conversations need to take place more often than systems conversations.
- Team members involved in problem solving will have to be able to commit to meeting at least every two weeks.

## 3-Tiered System of Support Necessary Conversations (Teams)

*Adapted from the Illinois PBIS Network*

 **Overview Of Team Meetings  
For Tier II**

- Systems discussed monthly (overall progress of Tier II)
- Problem-solving takes place at least every two weeks
- Agenda is created in advance/during previous meeting
- Data-based decisions are made regarding student placement and progress

**Slide #34**

**[ Overview of Team Meetings For Tier II ]**

**Trainer Notes:**

- Although the systems conversation may take place only monthly, the problem solving needs to happen every two weeks at a minimum.
- The next slide shows a Pre-Meeting Organizer--a form that can be used at the meeting for decision-making.

**RTI Arkansas**

## Example: Pre-meeting Organizer (Systems Discussion)

Intervention	# of Students Participating	# of Students with Positive Response	# of Students with Questionable Response	# of Students with Poor Response
Check-in, Check-out

**Slide #35**

**[ Example: Pre-meeting Organizer (Systems Discussion) ]**

**Trainer Notes:**

- This is a form created by MO-SWPBS to help organize group-wide (systems) information for the meeting. An adapted version is on the next page or can be downloaded here: <http://cce.astate.edu/pbis/wp-content/uploads/2019/11/Tier-II-Pre-Meeting-Organizer-updated.docx>
- The person designated to collect these data will bring this information to the team for consideration and problem solving.
- Note: although we will get into more detail in other modules (Module 4: Identifying Students for Tier II Interventions and the individual intervention modules 5 - 7), here is what is meant by “positive response”, “questionable response”, and “poor response”:
  - **Positive response** means that the student is meeting their goal in a timely manner (e.g., their daily points goal of 80% was met within two weeks of implementation and has sustained – the trend is positive).
  - **Questionable response** means that the student hasn’t quite met the goal in the time expected, but the trend is positive. The team may want to tweak the intervention and review in two weeks.
  - **Poor response** means that the student is not meeting their goal and the trend is not positive (e.g., the student never got to 80% of daily points and is actually doing worse over time. The team will want to go back and determine if the function was correct, or if the intervention was implemented incorrectly, etc.)
- Illinois has a Tier II/III tracking tool. Delaware and Missouri also have progress monitoring spreadsheets for Tier II interventions.
  - Illinois: <http://www.midwestpbis.org/evaluation/resources>
  - Missouri: <http://pbissmissouri.org/tier-2-and-tier-3-data-tools/>

#### Trainer Notes:

- This is an example of what the organizer might look like when prepared for the team meeting.
- In the bubble above is an example of the team discussion of overall progress of Tier II interventions (i.e., are 80% of students in the intervention having a positive response? If not, what steps does the team take: checking fidelity of implementation, reviewing function of behavior, etc.?)
- Positive response, questionable response and negative response are defined in the trainer notes for slide 35.
- Note that this chart helps the systems discussion, and the chart on the next slide will help guide the discussion towards individual students.

**Slide #38**  
**[ Example ]**

**Trainer Notes:**

- The “bubbles” show examples of conversation items that may take place during this part of the Tier II team meeting.
- Students are sorted into categories to make it easier to decide which students require problem solving and decisions.
- As noted in previous slides, we will be discussing data decision rules around students’ response to interventions, as well as rules for fading and graduating from interventions in other modules (Module 4: Identifying Students for Tier II Interventions, and the modules on specific interventions – modules 5 - 7).
  - Example: data decision rules for fading or graduating might be that the student has been earning an average of 80% or more of their daily points goal for 6 weeks.
- The person providing this information will pre-determine which students don’t need discussing and which need additional discussion, problem solving, and decisions made.

- Section 2.2: Team Operating Procedures

Arkansas Early Childhood | PBIS Arkansas Positive Behavioral Interventions & Supports | center for community engagement university of arkansas

**Slide #45**  
**[ Do It with Fidelity! ]**

**Trainer Notes:**

- The TFI is an important tool in the PBIS implementation process.
- It can be used in the development stage, and then used in an ongoing manner to ensure all core features are in place.
- The TFI highlights each critical component of PBIS.
- Section 1.14 will help you assess overall PBIS implementation at Tier I, and Section 2.1 will help you assemble the appropriate personnel for your Tier II team.

### Slide #46

### [ 2.2 Team Operating Procedures ]

**Trainer Notes:**

- In addition to having regular meetings and using an agenda, the team must have a current action plan that is updated at meetings.

## **Training Section Four**

### **District Leadership**

**Slides 47 - 50**

#### **Goal**

Participants will learn the responsibilities and focus of the Tier II District Leadership Team.

# District Leadership

**Slide #47**  
**[ District Leadership ]**

## District Responsibilities For PBIS

- Make student behavior top priority
- Conduct self-assessments
- Develop three to five year action plan
- Plan regular meetings
- Lead data-based decision making
- Secure stable funding
- Establish visibility
- Build training capacity
- Develop coaching network
- Evaluate PBIS efforts

### Slide #48

### [ District Responsibilities For PBIS ]

#### Trainer Notes:

- When districts commit to implementing PBIS, these are their responsibilities.
- A big part of the district's responsibilities from the beginning was to have a three to five year action plan, which should include implementing Tiers II and III.
- As some schools in the district move to Tiers II and III, the district should continue building capacity for training.

## Overall District PBIS Leadership Focus

- Drive district assessment and action planning process
  - Decide on differentiation of expectations
  - Decide on differentiation of implementation timeline
- Increase capacity in four areas:
  - Training
  - Evaluation
  - Coordination
  - Coaching

### Slide #49

### [ Overall District PBIS Leadership Focus ]

#### Trainer Notes:

- Having leadership and support from the district provides the best chance of implementation with fidelity and getting buy-in from stakeholders.
- Coordinating regular evaluation ensures that schools get necessary resources and training.
- Districts can make decisions about what the expectations and implementation timelines are for schools in the district.
  - Districts may choose to have schools use consistent expectations, variations of some standard expectations, or they may choose to let all schools choose their expectations individually.
  - Schools within a district may have different issues that affect their timelines for implementation. Districts may even decide to have groups of schools begin implementation at different times (cohorts).
- Through regular evaluation, the district can report successes they've had and create action plans to address areas in need.
- Reporting successes to stakeholders will help secure sustained funding and political support, and these, along with visibility, will help create better buy-in at school and in the community.

## Tier II District Focus

- Use assessment and other data to determine which schools are ready for Tier II
- Coordinate Tier II training and follow-up coaching support
- Provide access to a system for collecting and using Tier II data (plus training and ongoing support)
- Provide expertise and support on *some* interventions

### Slide #50

### [ Tier II District Focus ]

#### Trainer Notes:

- Bullet four above: it is extremely helpful to schools if the district provides expertise and support for some commonly used Tier II interventions (e.g., Check-in, Check-out and Social Skills Groups). Schools may eventually use other interventions, based on their student needs, but these will vary from school to school.

**Summary**

- Team responsibilities at Tier II include
  - Regular, frequent meetings
  - Providing professional development to other staff
  - Regular data collection
  - Regular data-based decision making
- Include staff with behavior expertise
- Team meetings at Tier II include both systems and individual student discussions
- Districts can help schools be successful at Tier II by providing support and resources

**Discussion Questions:**

The following questions will help schools start thinking about what is needed to establish an effective Tier II Leadership Team. If there is time, ask some of the questions below to engage attendees and assess whether they understand the material that has been presented. If you have a large group, consider having smaller groups discuss the questions and then report back to the entire group.

1. Who will be on your Tier II team? Have you included people with appropriate expertise?
2. How often will you meet to discuss systems? Individual students?
3. What agenda will you use for your meetings/discussions?
4. How and when will you communicate information and updates and receive feedback from staff, students, parents, community?
5. How will the district be involved in Tier II implementation? What resources and supports will be provided to schools implementing Tier II?

**Homework:**

- Create a strong, diverse Tier II team and assign roles.
- Create a plan for team meetings that includes organizational tools, agendas, meeting schedules, and topics that will be addressed at meetings.
- Determine how the district will develop and provide resources and support for schools implementing Tier II.

**Next Module:**

The suggested next modules are Module 3: Function Based Thinking and Overview of Tier II Interventions and Module 4: Identifying Students for Tier II Interventions. It is important to learn about function of behavior and how this is used in choosing appropriate interventions for students, so it is suggested that these two modules be used together to create a complete picture.
