

## What is RTI?

RTI is a multi-tier approach designed to identify, support, and monitor the progress of students who may be at risk for learning or behavior challenges.

## Who Does RTI Serve?

RTI is an educational initiative for **all** students, including those at risk, students with language differences, and students with disabilities.

### Tier 3

FEW

**Individualized Intervention**

### Tier 2

SOME

**Small Group Intervention**

### Tier 1

ALL

**Classroom Instruction**

## Reasons Families and Communities Support RTI

- Schools do not have to wait for students to fail before helping.
- Students receive additional instruction in a smaller group, often with their peers.
- Teachers communicate precise information with family and with decision-makers.

## Questions Families Might Ask About RTI

- What information is used to identify my child's needs?
- Who will provide the intervention instruction?
- What will my child miss if he or she receives an intervention?
- How does the school determine whether my child needs Tier 2 or Tier 3 supports?
- If my child is falling behind, will I be contacted? How often?
- How can I be involved in the RTI process?
